

Camp Sensation Eligibility Requirements

In order to make camp a fun and safe experience for your child, other campers, volunteers and staff, your child must be able to do the following without showing aggressive or unsafe behaviors:

- Participate in group activities (i.e. able to tolerate redirection verbally or with minimal assistance).
- Stay in group without running away.
- Attend to activities for at least 5 to 10 minutes and transition from one activity to another with minimal assistance.

Parents should review the criteria carefully to ensure that each child meets the eligibility requirements as outlined. It is at the discretion of your child's group leader and/or the camp coordinators to decide if your child is appropriate from the program, as Guthrie Robert Packer Hospital, Towanda Campus wants the camp experience to be fun and safe for all who attend.

Children in wheelchairs and with physical disabilities are welcome at camp. However, a 1:1 assistance or family member must accompany the child if the child does not meet requirements above, or have specific needs in the areas of feeding, medication, bathroom use or with mobility.

I, *print guardian's name* _____, acknowledge all of the eligibility requirements listed above and that my child/children meet all the requirements, or that they will be attending with an aid or nurse or family member that will assist in meeting all requirements.
